RE: ADDENDUM TO EPA FORM 8700-12(6-80)

Per advisement of several contacts in the regional EPA office we are submitting our notification of Hazardous Waste Activity for our Installation identified as:

EATON CORP., Controls Division West Plains

for Interum Status only.

At this time, we do not believe we meet the requirments defining a generator, treatment, or storage site. However, we have reason to believe that in a healthier business cycle, production could expand to a degree where we would qualify for active status. Assignment of an ID number can only expidite processing in the future.

As I am the purchasing agent of chemicals and service contracts, I am also the Chemical Management Program Coordinator. All activity concerning purchase and disposal of chemicals is controlled by my central office.

Duplicate records of the central file will be maintained at each of our seven sites. The assisgned chemical controller who will maintain the files at this particular site is Jim Counts.

However, as we are centrilized, please send all communications to my office in our divisional headquarters at:

EATON CORP. Controls Division West Plains
